Chairman's statement

Introduction

The investment strategy of the Company is to establish a diversified portfolio of holdings in smaller, unquoted companies whilst at the same time selecting and structuring investments in such a way as to reduce the risk normally associated with investment in such companies. This is achieved as follows:

- Qualifying Investments representing approximately 80 per cent. of net funds raised, comprise investments in businesses across a broad spread of industries.
- Up to two thirds of Qualifying Investments comprising debt secured on "bankable" assets. This debt generates a significant proportion of the total anticipated return from individual investments.
- Up to 20 per cent. of net funds raised being in Non-Qualifying Investments comprising fixed and floating interest rate securities, financial instruments and short term money market deposits all issued by, or with, major banks with a Moody's credit rating of at least A.

Investment progress

The period under review saw a further 'C' Share issue, in which the Company raised a total of £7 million for the 2003/04 season, which takes the total fundraising for the 'C' Shares to £18.6 million. This will enable the Company to diversify and develop further its investment portfolio.

Two investments in new companies were made during the period; £827,000 in Bold Pub Company, which owns 11 freehold pubs in North West England, and £1,000,000 in Grosvenor Healthcare, which provides healthcare services to large corporates (with a further amount of £750,000 reserved for investment in the following tax year). Both companies are trading ahead of expectations. In addition, a further £238,000 was invested in Automotive Technik, to fund working capital following a substantial order from the New Zealand Ministry of Defence which also led to an increase in the company's valuation. This was partially balanced by an additional writedown of the Q Gardens Company, where a further £65,000 was invested to support trading, and a provision against Consolidated Communications in view of market ratings.

Overall, this led to a 0.8 pence decline in the net asset value per Ordinary share, and a 1.5 pence increase in the net asset value per 'C' Share. Following the half year the investment in Leisure Links International was sold, realising a capital loss of £213,000 for the Ordinary Share portfolio. Despite the continuing depressed level of the Ordinary Share's NAV, we consider that the prospects for the portfolio as a whole are encouraging.

Results and dividends

As at 30 June 2004 the net asset value of the Ordinary Share portfolio was £10.8 million, (2003: £11.4 million), equivalent to 75.5 pence per share (2003: 78.3 pence) for the Ordinary Shares, while the 'C' Share portfolio was £17.7 million, (2003: £11.0 million), or 94.3 pence per share (2003: 94.3 pence). Net income after taxation for the Ordinary Shares was £200,000 for the six months, (2003: £311,000) and the board declares a maintained net interim dividend of 1.8 pence per Ordinary Share (2003: 1.8 pence per share). Net income after taxation for the 'C' Share portfolio was £201,000 (2003: £60,000), enabling an interim dividend of 1.1 pence to be paid (2003: 0.75pence) (Nil for those shareholders who subscribed after 31 December 2003). Dividends are payable on 15 October 2004 to those shareholders registered on 1 October 2004.

The following is the total return of the Company since launch in January 1999.

Independent review report to Close Brothers Development VCT PLC

Introduction

We have been instructed by the Company to review the financial information for the six months ended 30 June 2004 which comprises the Statement of total return, the Balance sheet, the Cash flow statement and related notes 1 to 9. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the Company in accordance with Bulletin 1999/4 issued by the Auditing Practices Board. Our work has been undertaken so that we might state to the Company those matters we are required to state to them in an independent review report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, for our review work, for this report, or for the conclusions we have formed.

Directors' responsibilities

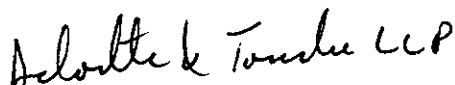

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures are consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with the guidance contained in Bulletin 1999/4 issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of management and applying analytical procedures to the financial information and underlying financial data and, based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with United Kingdom auditing standards and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 June 2004.

Notes to the interim results

1. Principal activity

The principal activity of the Company is that of a Venture Capital Trust. It was approved by the Inland Revenue as a Venture Capital Trust in accordance with Section 842AA of the Income and Corporation Taxes Act and subsequently conducts its affairs so as to enable it to continue to retain such status. The Company is not a close company for taxation purposes. Details of the principal investments made by the Company are given above in the review of the portfolio of investments. A review of the Company's business during the period is contained in the Chairman's statement.

The Company is an investment company as defined in Section 266 of the Companies Act 1985.

2. Accounting policies

The principal accounting policies of the Company all of which have been applied consistently throughout the period and the preparation of the accounts are set out below.

Accounting convention

The financial statements are prepared under the historic cost convention, modified by the revaluation of certain investments. The financial statements are prepared in accordance with applicable United Kingdom law and accounting standards and with the Statement of Recommended Practice "Financial Statements of Investment Trust Companies" (SORP) in all material aspects. The particular accounting policies adopted are described below.

Investments

Investments listed on recognised exchanges are stated at market value based upon middle market prices at the end of the accounting period. Unquoted investments are stated at a valuation determined by the directors in accordance with the British Venture Capital Association guidelines. Amounts accrued under redemption premium on secured loan stock are dealt with in the fixed asset investments of the Company. The unrealised depreciation or appreciation on the valuation of investments and gains and losses arising on the disposal of investments are dealt with in the capital reserve.

It is not the Company's policy to exercise controlling or significant influence over investee companies. Therefore the results of these companies are not incorporated into the revenue account except to the extent of any income accrued.

Income and expenses

All income and expenses are treated on the accruals basis and dividend income is included in revenue when an investment is quoted ex-dividend. Any fixed returns on non-equity shares or debt securities are recognised on a time apportionment basis.

Management expenses

75 per cent. of management expenses, representing the proportion of the fees attributable to the enhancement of the value of the investments of the Company, have been charged to capital reserves, net of corporation tax. All other expenses are charged to the revenue account.

Issue costs

Issue costs associated with the allotment of Ordinary and 'C' Share capital have been deducted from the share premium account in accordance with Financial Reporting Standard No. 4.

Taxation

Taxation is applied on a current basis in accordance with Financial Reporting Standard No.16. Taxation associated to capital expenses is applied in accordance with the SORP. In accordance with Financial Reporting Standard No.19, deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered.
